

2009 Twilight League at Penobscot Valley

A sure sign that spring has nearly arrived each year at PVCC is the anticipation for the start of another season of Twilight League Golf. Historically this is the most popular event on the tournament calendar and is a great way to enjoy the camaraderie and fellowship of other members with some friendly competition thrown in just for fun. The opening banquet and team selection will take place on Wednesday, May 13th. The opening night of play this season will be on Wednesday, May 20th. We would ask that all those who are interested in playing in the league as regular players, or those looking to play as substitutes, to return the attached entry form prior to April 15th to allow sufficient time to put together league schedules, rules of play and player rosters to all league members.

The season will be divided into two halves. Players will participate on the same team for the entire season. Players will be placed on a team of six and will play an individual match each week against an opponent within the same flight from another team. Nine-hole matches will be played each Wednesday starting with a 4:30 pm shotgun start. League play will start on May 20th and will continue into early September, allowing all teams to compete head-to-head once during the season. Prizes will be awarded each week for winning teams and again at the end of the season for both winning teams, as well as individual winners within each flight.

The registration fee for the Twilight League will be \$75.00 per player, which will include the cost of the opening and closing banquets, as well as prizes for league winners at the end of the season.

For those of you who would like to be placed on a substitute roster, please fill out the entry form below but do not send the entry fee required of regular players. Please include telephone numbers where you can be reached so that we may publish the list of substitute players to all league participants.

PLEASE DETACH AND RETURN WITH PAYMENT

2009 TWILIGHT LEAGUE APPLICATION
